

a 100-year company, that specializes in fastening

TEIKOKU SEIBYO CO.,LTD.

Let us know if you need something new.

We fuse traditional technologies and new technologies into one. And our business slogan is “Meeting customer needs”. So we believe our 100-year experience guarantees high end solutions for customers satisfaction. Your questions, requests, and ideas will lead us to our future. In all seriousness, we want to work hard for you. We are all ears.

Line up

● Rail spikes

● Screw spikes

● Prestressed concrete sleepers-rail fastenings

● gauge block

● Track bolt

● Rail bolts and nuts

● High mechanical strength bolts

Size : M16 ~ M100
Shank : Max1100mm

● Zinc Hot Dip Galvanizings high mechanical strength bolts

Size : M16 ~ M100
Shank : Max1100mm

● Metric fine pitch thread Hexagon bolt

● Headed studs

● Long size Headed studs

Size : 13 ~ 25
Shank : Max1100mm

● Stainless Headed studs

Size : 13 ~ 25
Shank : Max1100mm

● Hexagon socket head cap screws

Size : M20,M24,M30 ~ M48
Shank : Max1100mm
(M20,M24 More than 200)

● Stainless Hexagon socket head cap screws

Size : M24 ~ M42
Shank : Max1100mm

● Stainless Bolts

Size : M20 ~ M42
Shank : Max1100mm

● High power hexagon bolt

● Stainless steel high power hexagon bolt

Size : M12 ~ M24

● Hot-dip galvanized high power hexagon bolt

Size : M12 ~ M30

● Large diameter high mechanical strength bolts

Size : M33 ~ M64
Shank : Max 1100mm

● Long size high mechanical strength bolts

Size : M16 ~ M64
Shank : Max 1100mm

● studs

● Hook bolts

● Special shape bolts

● Drift pins

● For large space construction bolts (TM bolts)

● Reamer bolt

● Products using the titanium alloy bolts

● Residential seismic reinforcement bolts

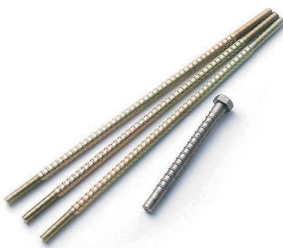

● Leveling bolts

● Other Forging

● Different forms foundation bolt

● For breeds rail spike

Always,
we are all ears.

Company history

November	1917	Teikoku Seibyo Co.,Ltd. was established with capital of 20 million yen. As an official supplier of the Ministry of Railways, we manufactured Dog Spikes, Fishbolts and Nuts and also Revets for ships and architecture.
May	1942	Renamed to Teikoku Seiki Co.,Ltd. and capital increased to 100 million yen, and started munitions production.
March	1950	Renamed to Teikoku Seiko Co.,Ltd. and started to manufacture electric machines.
November	1954	Renamed to Teikoku Seibyo Co.,Ltd. again and capital increased to 150 million yen. Focused to Bolts and Rivets manufacturing business.
September	1962	Capital increased to 30 million yen.
April	1965	Cold forging section was organized. Started to manufacture High Strength Hexagon Bolts.
July	1969	Capital increased to 60 million yen.
February	1974	Land acquired in Sakai city for factory use.
October	1993	Started to manufacture Large diameter bolts.

List of Products approved to indicate JIS mark

October	1951	JIS E1108	Dog Spikes
December	1952	JIS E1109	Screw Spikes
February	1953	JIS B1214	Rivets
December	1953	JIS E1107	Fishbolts and Nuts
August	1963	JIS B1180 (Strength range 4.6 ~ 6.8)	Hexagon Head Bolts
November	1963	JIS E1113	Heat Treated Bolts and Nuts for Fish Plates
November	1973	JIS B1186	High Strength Hexagon Bolt Set
April	1989	JIS B1198	Headed Stud
June	2000	JIS B1180 (Strength range 8.8 ~ 12.9)	High Strength Hexagon Bolt Set

List of ISO certification

September	2009	ISO 14001:2004
December	2012	ISO 9001:2008

Product Lines

[Track Railroad]

Track spikes, tie plate fastener spikes, fishplate bolts/nuts, P.C. tie bolts, screw spikes, gauge blocks/spring clips, washers, tie plates, truck bolts, low magnetic field bolts, T bolts, double-threaded bolts

[Construction/Construction Machinery]

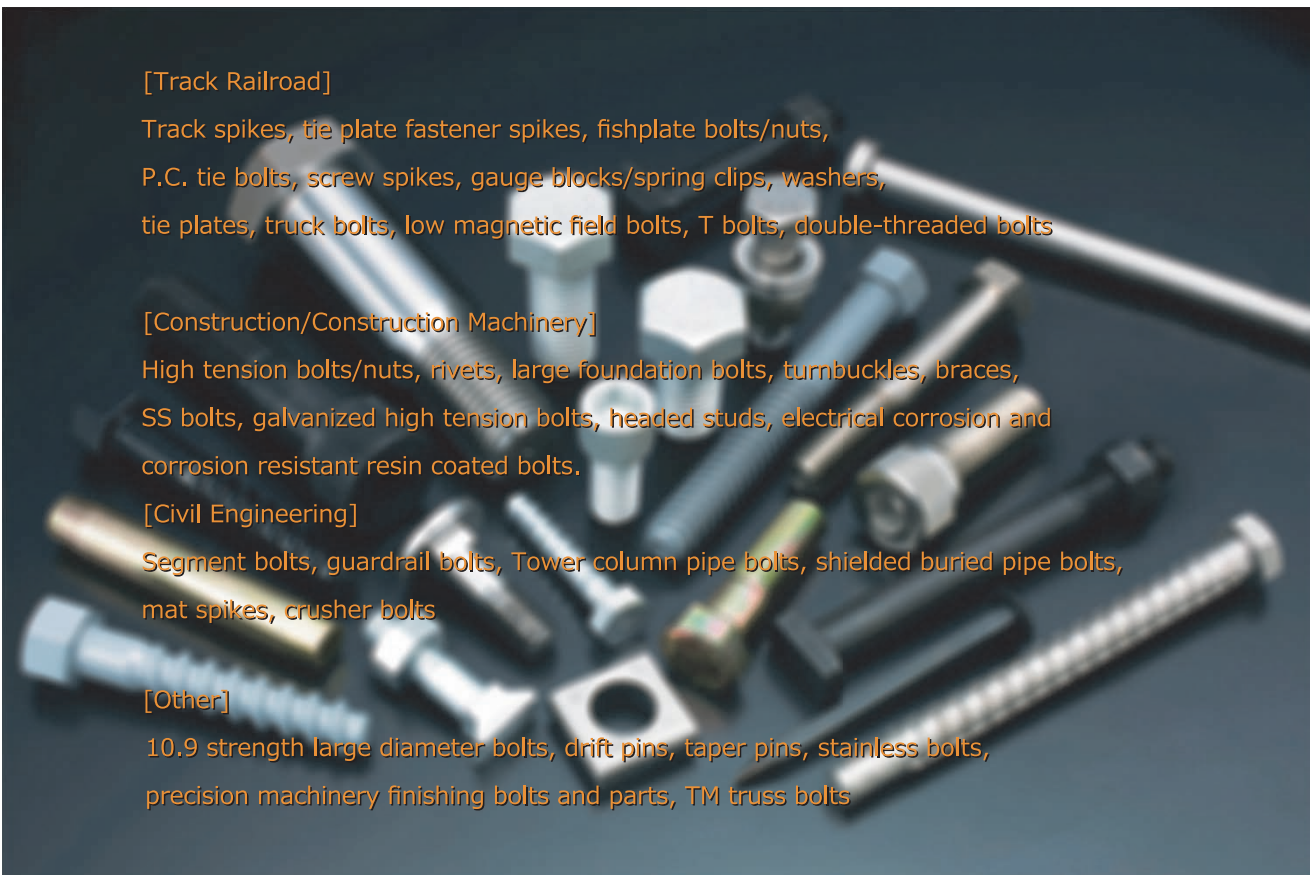

High tension bolts/nuts, rivets, large foundation bolts, turnbuckles, braces, SS bolts, galvanized high tension bolts, headed studs, electrical corrosion and corrosion resistant resin coated bolts.

[Civil Engineering]

Segment bolts, guardrail bolts, Tower column pipe bolts, shielded buried pipe bolts, mat spikes, crusher bolts

[Other]

10.9 strength large diameter bolts, drift pins, taper pins, stainless bolts, precision machinery finishing bolts and parts, TM truss bolts
